

EKPEREZIE PAUL NMERI

SKILLS & ABILITIES

- **MYSQL** (Data retrieval using SQL queries, Data cleaning and transformation, Data modelling and optimization).
- **Microsoft Power BI** (Power query, Advanced DAX, Dashboard creation).
- **EXCEL** (Power query, Power Pivot, Dashboard creation)

PROJECTS

- FREELANCE PLATFORM INSIGHT –

I performed an analysis on a freelancer marketplace dataset that contained over **75,000** rows. Using **POWER BI**, I created visual dashboards to highlight key trends, patterns and actionable insights.

Here is a link to the full project (<https://github.com/Ekperezie/Freelancer-Platform-insights->)

- SUPERSTORE DATASET CLEAN-UP

In this project I performed data cleaning on a superstore dataset using **MYSQL** to write relevant queries that helped to clean up the data.

Here is a link to the full project (<https://github.com/Ekperezie/Superstore-data-clean-up-SQL-Query>)

- REAL ESTATE DATASET CLEAN-UP

In this project I performed data cleaning on a dataset which contained over **19,000 rows** using **MYSQL** to write relevant queries that helped to clean up the data.

Here is a link to the full project (<https://github.com/Ekperezie/REAL-ESTATE-DATA-CLEANING>)

- REAL ESTATE DATASET ANALYSIS

In this project I performed an analysis on a Real estate dataset containing over **19,000 rows**. Using **EXCEL**, I evaluated Geographic sales trends, broker performance and revenue patterns. I built an interactive dashboard to highlight key insights and support strategic decision making.
